

Jungwon Kong

Ph.D. Candidate, Seoul National University

georgekong41@snu.ac.kr | <https://jungwon-kong.github.io/>

Education

- Ph.D. in Engineering, Seoul National University [2023–Present]
Major: Technology Management, Economics and Policy Program | Digitalogy Lab (formerly, I-Stick Lab)
Integrated major: Smart City Global Convergence
Dissertation: “[TBD]”
Committee: Sira Maliphol (chair), Junseok Hwang (advisor), [TBD], [TBD], Hongbum Kim
- M.S. in Engineering, Seoul National University [2021–2023]
Major: Technology Management, Economics and Policy Program (I-Stick Lab)
Integrated major: Smart City Global Convergence
Thesis: “Understanding Smart City Development Strategy: A Comparison between Siheung City and Florida NeoCity” (Advisor: Junseok Hwang)
- M.S. in International Business, Hult International Business School [2018–2019]
Cambridge, MA, USA
- B.M. in Music Business and Management, Berklee College of Music [2013–2018]
Boston, MA, USA

Research Interests

Topics: Technology Management, Innovation, Creative Industries, Creativity, Knowledge Spillovers
Methodologies: Computational Social Science, Econometric Analysis, Patent Analysis, Natural Language Processing & Text Analysis, Business Analysis, Music Information Retrieval

Publications

Kong, Jungwon, Hwang, J., and Kim, H. (2025). “Building Smarter Cities Together: Government-to-Government Partnerships in the Development of Smart Cities.” *Cities* 156: 105532.

Working Papers

- Kong, Jungwon**, Hwang, J., and Kim, H. “Can AI Expand Human Musical Creativity? Acoustic and Semantic Evidence from Popular Music.” *Under review*
- Kong, Jungwon**, Hwang, J., and Maliphol, S. “Artificial Intelligence in a Creative Industry: Technological Impact and Knowledge Flows in the Music Industry.” *Work in progress*
- Kong, Jungwon**, Hwang, J., and Maliphol, S. “Recombinant Human Capital: How AI Redefines the Occupational Map of the Music Industry.” *Work in progress*

Conference Presentations

- “From Taste to Trajectory: Understanding Cultural Signals through Genre Popularity in the Music Industry,” Korea Society of Innovation & TEMEP Conference, South Korea [2025]
- “How Accordance between City Brand and Individual Personality in Smart City Promotion Affects Willingness to Live,” Urban Design Institute of Korea, South Korea [2021]

Invited Talks

- “Entrepreneurship and Branding: The Role of Patents and Technological Innovation in Creative Entrepreneurship,” Anyang University [2025]

Research Projects

- BK21 International Joint Research Project, Florida, USA [Jan–Feb 2024]
Proposed and developed a community-based digital education model to reduce digital inequality and enhance economic participation among elderly populations
- Manufacturing Servitization Research, Gachon University [Jul–Oct 2023]
Analyzed and reviewed the literature on manufacturing servitization and industrial transformation strategies through case-study research
- K-Lab Cooperation with Laos Support, NIPA [Jul 2021–Feb 2023]
National IT Industry Promotion Agency (NIPA) — conducted ICT capacity-building research and implemented problem-solving-based educational programs to support digital innovation development in Laos
- Smart City Innovation Ecosystem in NeoCity [Jul–Aug 2022]
Osceola County Government, Florida, USA — conducted field research in NeoCity, Florida; interviewed Osceola County commissioners on requirements for NeoCity's smart city identity
- Community-Based Education Model with Metaverse, Seoul National University [Mar–Aug 2022]
Designed and evaluated a metaverse-enabled education framework integrating NFT technologies and entrepreneurship education for smart city learning environments
- SRS Autopilot Commercial Concept Proof with 4D Image Radar [Aug 2021–Mar 2022]
Seoul National University — investigated technology commercialization pathways for autonomous mobility solutions by applying smart city platforms and 4D image radar technologies in Siheung City

Work Experience

- Overseas General Manager Advisor, [Of Young] [Apr 2024–Present]
Coordinated stakeholders across countries and advised on international operations for major fashion events (Seoul Fashion Week 2024 F/W; 2024 VIVZ World Fashion Week, Dubai)
- Teaching Assistant, Seoul National University [Sep–Dec 2023; Mar–Jun 2022]
Introduction to Smart City Global Convergence: class preparation, discussions, grading, and organizing invited lectures
- Teaching Assistant, WeGO (World Smart Sustainable Cities Organization) [Mar–Apr 2022]
Supported an international smart city education program by delivering core concepts and guiding participants in designing and executing citizen-led projects
- Head Manager / Accountant, East Green Marketing and Management [Oct 2019–Apr 2020]
Seattle, WA, USA — analyzed profit & loss and purchasing/sales reports; monitored product performance and designed business strategies
- Squad Leader, Republic of Korea Army (Yeongcheon, South Korea) [Sep 2016–May 2018]

Patents

- “Method for Providing Smart Healthcare to Lower Stress Index” [Filed 2023]
Korean patent application No. 10-2022004-4915
Inventors: Kong, J., Hwang, W., Than, S., and Hwang, J.
A smart healthcare method that monitors heart rate via wearable devices to detect stress levels and automatically delivers personalized music therapy to reduce stress and improve sleep

Awards and Scholarships

- BK21 Scholar Student (Ph.D.), Seoul National University [2023]
- BK21 Scholar Student (Master's), Seoul National University [2021]

Future Leader Scholarship, Hult International Business School [2019]
Scholar Student & Dean's List, Berklee College of Music [2018]

Advising and Mentoring

Mentor, ASEAN Smart City Professional Program (ASPP), Seoul National University [2023–2026]
Mentored international students on interdisciplinary approaches to emerging technologies, innovation ecosystems, and human-centered digital transformation for addressing urban and societal challenges

Skills

Programming & Data Analysis: Python, R, Stata
Research Tools (Network Analysis): Gephi, VOSviewer
Web Technologies: HTML, CSS, JavaScript
Software: QuickBooks
Languages: Korean, English
